**KPS Statement:** The International Dyslexia Association's (IDA) Knowledge and Practice Standards for Teachers of Reading Coursework is aligned with the IDA's Knowledge and Practice Standards (KPS) for Teachers of Reading. The KPS outline the knowledge and skill that all teachers of reading should possess. Standard 1 addresses foundational concepts, derived from interdisciplinary research, about reading

development and reading difficulties. Standard 2 covers knowledge of diverse reading profiles, including dyslexia. Standard 3 pertains to knowledge of assessment. Standard 4 addresses Structured Literacy™ teaching, offering detailed guidance with regard to the nature of effective instruction in each major domain (phonological sensitivity and phoneme awareness; phonics and word recognition; reading fluency; vocabulary; listening and reading comprehension; and written expression). Standard 4 also offers guidance regarding expectations for teachers engaged in field work or practicum (e.g., in interpretation of assessments, planning differentiated instruction, lesson design, corrective feedback, and so forth). Standard 5 delineates ethical standards for the profession. A copy of the KPS can be found here: <https://app.box.com/s/21gdk2k1p3bnagdfz1xy0v98j5ytl1wk/>

**Attendance/Participation:** All students are responsible for attending class and completing weekly assignments. Even in online courses, you need to show up at specific times. For the most part, your work is individualized yet has deadlines. Students will not be excused from assignments due to outside issues that have not been brought up to me promptly and I have agreed to take the assignment late based on our discussion. Online is an open acrocyanotic (open time) way of working, but there are deadlines and expectations. Your attendance is different than a “ground” class. For the most part, you are working independently with deadlines for assignments. You are “tracked” in your time spent on Blackboard. You should be on each week for a significant amount of time to read the announcements (check every other day at least) and to go over the assignments and post weekly your assignments when due.

**Technology:** This is an online course and it is expected that you will have a working, reliable computer and access to alternatives to complete the course. There will be no leeway on late assignments due to technology issues. You must seek help early and from the technology and/or Blackboard student support. Emailing me of issues does not give you more time to turn in your work. Be proactive and have options for what you need to do, solving your problems before deadline dates. No assignments can be emailed to me. You must attach them on Blackboard in Word. I need to be able to pull them up, see them formatted in APA correctly, and be able to download them if necessary.

### **Grading:**

At the end of the course, all points will be summed, and grades assigned according to the following:

<i>Percentage</i>	<i>Grade Level</i>	<i>GPA</i>
<i>100% to 94%</i>	<i>A</i>	<i>4.0</i>
<i>93% to 90%</i>	<i>A-</i>	<i>3.7</i>
<i>89% to 87%</i>	<i>B+</i>	<i>3.3</i>
<i>86% to 84%</i>	<i>B</i>	<i>3.0</i>
<i>83% to 80%</i>	<i>B-</i>	<i>2.7</i>
<i>79% to 77%</i>	<i>C+</i>	<i>2.3</i>
<i>76% to 70%</i>	<i>C</i>	<i>2.0</i>
<i>69% to 67%</i>	<i>D+</i>	<i>1.3</i>
<i>66% to 64%</i>	<i>D</i>	<i>1.0</i>
<i>63% to 60%</i>	<i>D-</i>	<i>0.7</i>
<i>59% and below</i>	<i>F</i>	<i>0.0</i>

For a minimum grade of “C” in the course, all of the requirements included above must be completed and turned in for a grade.

**AI Usage:** Generally speaking, you are not authorized to use artificial intelligence engines, software, or artwork-generating programs (or similar) to produce work for this class EXCEPT on assignments that I have identified and for which you will have received significant guidance on the appropriate use of such technologies. I will provide more information about the specific assignment when the time is appropriate in the course. You may not, however, construe this limited use as permission to use these technologies in any other facet of this course.

**Late Work:** An assignment is late if it is not turned in at the place, date, and time established by the professor. All assignments turned in late will result in a reduction of 10% of possible points for each day late. The professor understands that at times there are extraordinary circumstances that occur and should be taken into consideration. These circumstances must be shared with the professor before the due date (and not the night before) for any extension to be given.

**Field Experience:** Students are expected to read and understand all of the information contained in the Field Experience Expectations & Policies document. Students will be asked to leave their field experience and this course if they are not progressing with course requirements as expected by the cooperating teacher, principal, and/or the instructor. Common infractions include not showing up for fieldwork, being late to fieldwork, failure to be prepared enough to impact student learning, failure to prepare and fulfill the requirements of teaching demands, relationship conflicts with the field experience teacher, lying, cheating, plagiarism, and other unprofessional behavior as noted in the School of Education's Program Dispositions. If a problem is brought to the attention of the instructor, the student will be placed on a formal support plan for one week. If progress is not made within 1 week, the student will be removed from field experience. Students cannot complete the course if they have been asked by the cooperating teacher, school, or university instructor to leave the field experience placement. Students may withdraw from the course if the timing of the dismissal allows it. However, if the dismissal happens after the withdrawal date, students will earn a failing grade (F).

**Incomplete Grades:** A grade of "Incomplete" will only be assigned if a student and the professor have agreed upon the grade before the end of the last week of classes and will not be assigned merely because work may be incomplete. Extraordinary circumstances such as excused illness or death in the family must have occurred for an incomplete to be considered. In all cases, if an incomplete is granted, it is the responsibility of the student to submit a timeline of due dates for all incomplete assignments. Failing to meet such timelines will result in grades of "0" on those assignments.

**Faculty Initiated Student Withdrawal:** Students who are enrolled for this course but do not meet prerequisite requirements (such as being admitted to the School of Education, having a high enough GPA, submitting background checks to the office, etc.) will be asked to drop the course before the end of the drop period. Students will be notified of this in writing. If a student drops the course before the end of the drop period, it will be removed from his/her transcript and no grade will be issued. However, if the student does not drop the course by the end of the drop period, the instructor will initiate a withdrawal (see university catalog regarding Faculty Initiated Student Withdrawal). The instructor will notify the student of this action in class and/or by contacting them using the email or phone number on file with the School of Education. If the attempts to contact the student are unsuccessful after one week, the instructor will take the withdrawal form to the department chair for signing. The student will receive a grade of W on his/her transcript for the course.

**Student Conduct:** Students are required to follow the policies set within the Student Code of Conduct at CSU-Pueblo. This Code can be found on the Student Affairs website at <https://www.csupueblo.edu/student-affairs/student-conduct/index.html>. Students with questions regarding any guidelines within the Code should contact the Director of Student Conduct and Case Management at 719-549-2092.

**Accommodations:** <https://www.csupueblo.edu/disability-resource-and-support-center/faculty-staff-resources.html>. If you have a documented disability that may impact your work in this class and for which you may require accommodations, please see Disability Resources as soon as possible to arrange services. Disability Resources is located in OSC 104 and can be reached by phone (719-549-2648) and email ([csup\\_dro@csupueblo.edu](mailto:csup_dro@csupueblo.edu)).

**Starfish Performance Notifications:** Starfish notifications inform you and your academic success team of your performance in this class. Reading these emails and/or texts and taking the suggested actions is highly encouraged for your success. Please access Starfish through PAWS to view your kudos or flags. You may also access Tutoring and request assistance from many other services through Starfish.

**Course Evaluations:** Faculty are required to set aside time during a class period for student course evaluation. The evaluation period will take place during the last three weeks of the course. Please be prepared to complete your course evaluation digitally during class in Week 15.

### Academic Misconduct

Academic misconduct is any form of cheating that results in students giving or receiving unauthorized assistance in an academic exercise or receiving credit for work which is not their own. In cases of academic misconduct, the instructor will follow protocol as identified by their department. Academic misconduct is grounds for disciplinary action by both the instructor and the [Office of Student Conduct and Community Standards](#). Any student found to have engaged in academic misconduct may receive a failing grade for the work in question, a failing grade for the course, or any other lesser penalty which the instructor finds appropriate. To dispute an accusation of academic misconduct, the student should first consult with the instructor. If the dispute remains unresolved, the student may then state their case to the department chair (or the dean if the department chair is the instructor of the course). A student may appeal a grade through the Academic Appeals Board, if eligible, as described in the [Catalog](#).

Academic misconduct is a behavioral issue as well as an issue of academic performance. As such, it is considered an act of misconduct and is also subject to the University conduct process as defined in the CSU Pueblo [Student Code of Conduct](#). Whether or not disciplinary action has been implemented by the faculty, a report of the infraction should be submitted to the Office of Student Conduct & Community

Standards who may initiate additional disciplinary action. The decision by the Office of Student Conduct & Community Standards may be appealed through the process outlined in the Student Code of Conduct. For assistance call 719-549-2067 or contact the [Office of Student Conduct and Community Standards](#)
